ABOUT US...

After a lot of wonderful encouragement and positive nudging I am pleased to continue hosting the **Pete Huttlinger Guitar & Fly Fishing Camp**. Originally I couldn't conceive of doing this camp without Pete. However, thanks to many of you, I've realized that what Pete and I created was a great experience for many people, ourselves included! As always it will be a fun environment with lots of laughter, camaraderie, and jams.

Jeff Troxel will be our lead teacher. He is a national flat-picking champion from Cody, Wyoming. He is also a noted teacher and jazz performer/composer. He'll be teaching flat-picking technique as well as many of the standard, and not-so-standard, tunes from the world of flat-picking

Fingerstyle guitar master Stephen Bennett will join us as the other instructor. Stephen and Pete were great friends and both Stephen and Jeff embody the spirit of Pete's love of teaching and nurturing students. Each student will receive a book of music prior to arriving at the camp. This camp will be packed with instruction and jams – day and night. You'll never find a more giving, or forgiving, group to jam with than at a camp. I hope you'll join us.

Erin Morris Huttlinger
